

Woven basket template

1. Cut out the template below and use a hole punch or a pencil to punch holes in the black circles.
2. Tie the end of a long piece of yarn or string to the base of the grey spoke on the wheel of the template
3. Begin weaving the the string in and out of the spaces and change directions each time you get back to the grey spoke.
4. When the string has been woven to the tops of the spokes, start weaving in and out of each hole .
5. Tie a knot when you have woven through each hole. Cutt off excess string.
6. (Optional) Use some leftover string to form a handle.
