READ ME LAST!

The Hope Family Homestead!

Carefully we are rolled into the exhibit hall. Looking around, I can see all the preparations that have been completed for the exhibit. Centre to all, is a title written on the wall high above the cases near the entrance. The letters are one foot high and spell out "The Hope Family Homestead." There are also large panels covering the majority of the walls. Some are filled with scrawly text, and others are large images of the homestead itself. In one of the pictures, I recognize the house and smiling faces of Judy and her family. However, my memories of them are in full colour while these pictures are in black and white. The images tell the story of my family and marbles, doll, and I are all excited to see them.
